*Tips for Keeping
Your Financial
Information
Secure*

Eric Arnold

Planswell

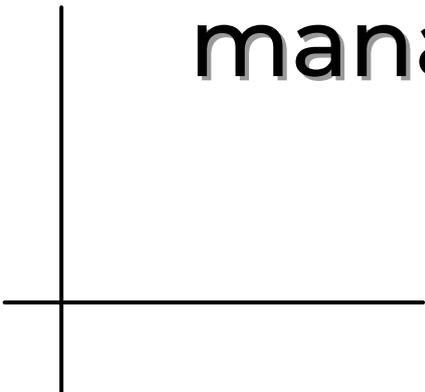

Financial organizations are continuously trying to reduce the risks which are responsible for the loss of consumer's financial information. But in the end, your financial data is only as secure as the precautions you take yourself.

Some Simple Ways To Protect Your Online Financial Information

Planswell

- Do your on-line banking at home
- Do your research
- Ask key questions
- Minimize your virtual footprint
- Use login credentials management tool

Planswell

- Protect your devices
 - Activate 'failed login' notifications
 - Select banks that use voice authentication
 - Contact financial institutions directly
 - Lock your credit scores
 - Get cyber security insurance coverage
 - Use different access levels for the team
-
